

Call for proposal: Toolkit for Making Cities Water Positive

About the Project: Making Cities Water Positive

This is a call for proposal from knowledge partners and agencies to develop the 'Toolkit for Making Cities Water Positive'. This suite of tools is a guide to make urban cities water positive by training and providing guidance to the local government, urban city developers, implementers, municipalities, PHED engineers and NGOs & other industry groups. These tools will be developed with inputs from the SWNI technical and program team and will be hosted on the cloud. Experts from water supply, waste water treatment, water conservation, dashboard development are preferred to lead these verticals of modules development.

Under the program:

1. There will be approximately 8 Modules developed as tools that are in word, ppt, or xls format. Refer Annexure 1 for details
2. Develop tutorials of these modules and web host them.
3. Participate in training webinars of these tools to refine them further.

Timelines: Six months starting from the award of contract.

Intellectual Property: Any data, report, tool, product, working paper developed under this contract are solely the property of Safe Water Network India.

Confidentiality: Any information, resources and assistance (including access to records, systems) shared with you during the course of program for development and the products developed from this engagement cannot be disclosed or used in electronic, print or audio medium.

Please send in your application to this mail id – psewak@safewaternetwork.org / psingh@safewaternetwork.org / info@swnindia.org till Feb 23rd, 2021

About Safe Water Network: Safe Water Network India is a not-for-profit Trust, registered on October 16, 2009, committed to bringing scalable, financially sustainable solutions that provide clean, affordable drinking water to the communities in quality-affected habitations in India.

Safe Water Network India holds a licensing agreement with Safe Water Network, a 501 (c) (3) registered non-profit organization in New York, USA and a core funder of the Trust.

About Project SEWAH: Project SEWAH is a joint collaboration between Safe Water Network India and USAID to strengthen the journey towards self-reliance in Urban Drinking Water through multiplier effect of knowledge hub and by leveraging the SWE Alliance. The project aims to create a legacy of a sustainable and reliable safe drinking water footprint in the urban cities to accelerate the SDG Goal 6.1 by developing capacities of the citizens, PHED engineers, SWE implementers and other stakeholders in the ecosystem so that SWEs are sustainably delivering safe drinking water reliably to the local communities.
