

Call for proposal: Capacity Building under the Project SEWAH

About Safe Water Network: Safe Water Network India is a not-for-profit Trust, registered on October 16, 2009, committed to bringing scalable, financially sustainable solutions that provide clean, affordable drinking water to the communities in quality-affected habitations in India.

Safe Water Network India holds a licensing agreement with Safe Water Network, a 501 (c) (3) registered non-profit organization in New York, USA and a core funder of the Trust.

About Project SEWAH: Project SEWAH is a joint collaboration between Safe Water Network India and USAID to strengthen the journey towards self-reliance in Urban Drinking Water through multiplier effect of knowledge hub and by leveraging the SWE Alliance. The project aims to create a legacy of a sustainable and reliable safe drinking water footprint in the urban cities to accelerate the SDG Goal 6.1 by developing capacities of the citizens, PHED engineers, SWE implementers and other stakeholders in the ecosystem so that SWEs are sustainably delivering safe drinking water reliably to the local communities.

About the Project: Capacity Building under the Project SEWAH

This is a call for proposal from training partners and agencies to assist in providing training and building capacity for Slum Level Federations/Self-help Groups (SLF/SHGs), ULB officials for SWE operations, maintenance, financial book-keeping, water quality management and monitoring. The engagement will be undertaken in the intervention cities finalized by Safe Water Network along with USAID.

Under the program:

1. There will be approximately 3 days training workshops twice a year in each intervention city
2. One citizenship engagement drive in each city

Timelines: Twelve months starting from the award of contract.

Intellectual Property: All output, training materials, questionnaires, feedback forms, results, data and reports generated under the award are solely the property of Safe Water Network India.

Confidentiality: Any information, resources and assistance (including access to records, systems) shared with you during the course of program for this engagement cannot be disclosed or used in electronic, print or audio medium.

Please send in your application to this mail id – psewak@safewaternetwork.org / psingh@safewaternetwork.org / info@swindia.org till Feb 25, 2020

Proposal Requirements

1. The partner should have credible experience in training of master trainers and should submit such credentials along with the proposal.
2. Team credentials must be shared along with the proposal
3. Proposal must be submitted within the last date mentioned in this call for proposal
4. Total proposal cost must be submitted as exclusive of applicable taxes and charges
5. Training venue cost should be excluded from the proposal cost as the same will be facilitated
6. Proposal should be 6- 8 cities to be covered during year 1.

Annexure 1

Scope of Work shall include the following activities:

- a. Training and Capacity building for SLF/SHG groups in SWE operations, maintenance, financial book keeping and technical trouble-shooting
- b. Training and Capacity building for ULB officials in SWE operations, maintenance, water quality tracking and monitoring through dashboards
- c. WASH education at schools & SWE kiosks
- d. Working with the ward members and councilors on last mile connectivity
- e. Citizenship awareness drive on water conservation and water saving at homes

All of the above activities will be undertaken in the intervention cities shortlisted and shared by SWNI. The training content will primarily be the toolkit to be shared by SWNI and delivered by the experienced master trainers of contractee.
