

DIGITAL iTapWater TOOLKIT

iTapWater Toolkit

The iTapWater Toolkit is a step to build self-reliant water-sufficient communities.

iTapWater Toolkit will create a cadre of trainers, planners and implementers to operate and maintain their community water supply system. This will ensure water supply on regular basis in an adequate quantity and of prescribed quality.

WEB BASED TOOLS: 12 MODULES, 45 SUB-MODULES AND 107 TOOLS FOR RELIABLE DELIVERY OF SAFE WATER THROUGH FUNCTIONAL HOUSEHOLD TAP CONNECTIONS
